

# SMART AUTOMATED WEATHER STATION

PARAMETER	RANGE
Temperature	-20 DegC to 55 DegC
Relative Humidity	0% to 100%
Air Pressure	300 hpa to 1100 hpa
Heat Index	Derived
Dewpoint	Derived

PERIPHERALS	DESCRIPTION
Power Supply	Solar Powered with Lithium-Ion Battery
Operating Temperature	-20 DegC to 55 DegC
IP Rating	IP65
Data Communication	Internal Antenna with Global Sim
Transmission Rate	15 min, 1 hour, 6 hours, and 24 hours

## Additional Features:

- No programming and complex wiring
- Real-time access to data from any web browser
- Cloud-based data access
